Reproducible Research - Same Results: Anytime, Anywhere, Anybody.

Should be in an email I sent you ... May? March?

Hold down ALT and click on the little hippo icon.
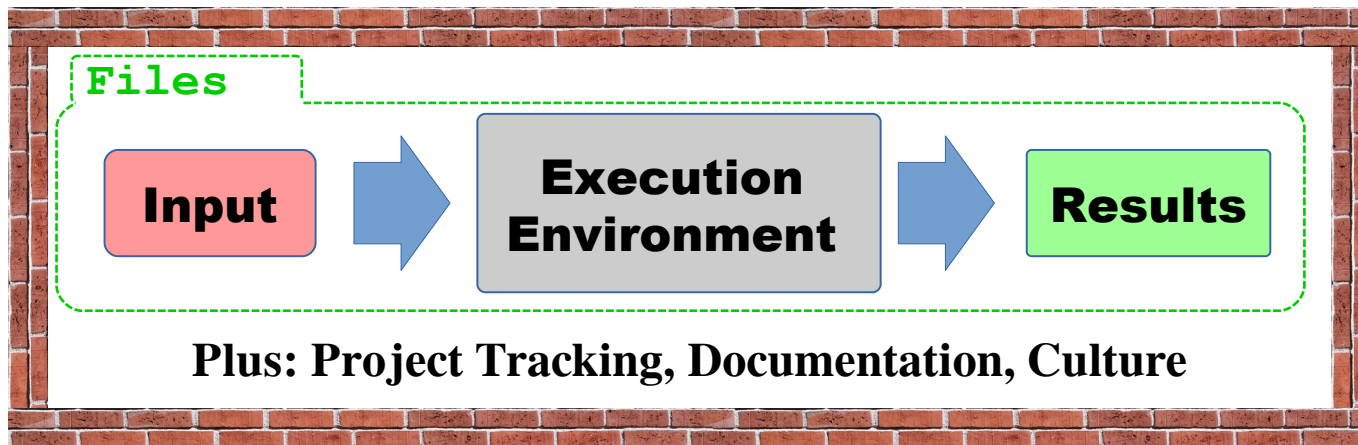

What does it mean if it says `"data.csv: file not found"`?

There may have been a few changes since we submitted ...

I think he got it from `freeNGStools.info`?

If it segfaults you need to use the SPARC, behind the Northern Blot rig.
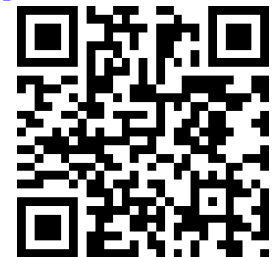

It's on a thumb drive in the cold room.

Plus: Project Tracking, Documentation, Culture

Mary knows. But she left in 2015.

Well, it works on <u>my</u> box.

No rows? Oh, the web service was retired last July.

Sheet 3, column CQ. The different background colors are treatment groups, italics indicate a control.

When it asks "Заразить сейчас?" enter "нет".
